Logo Philosophy

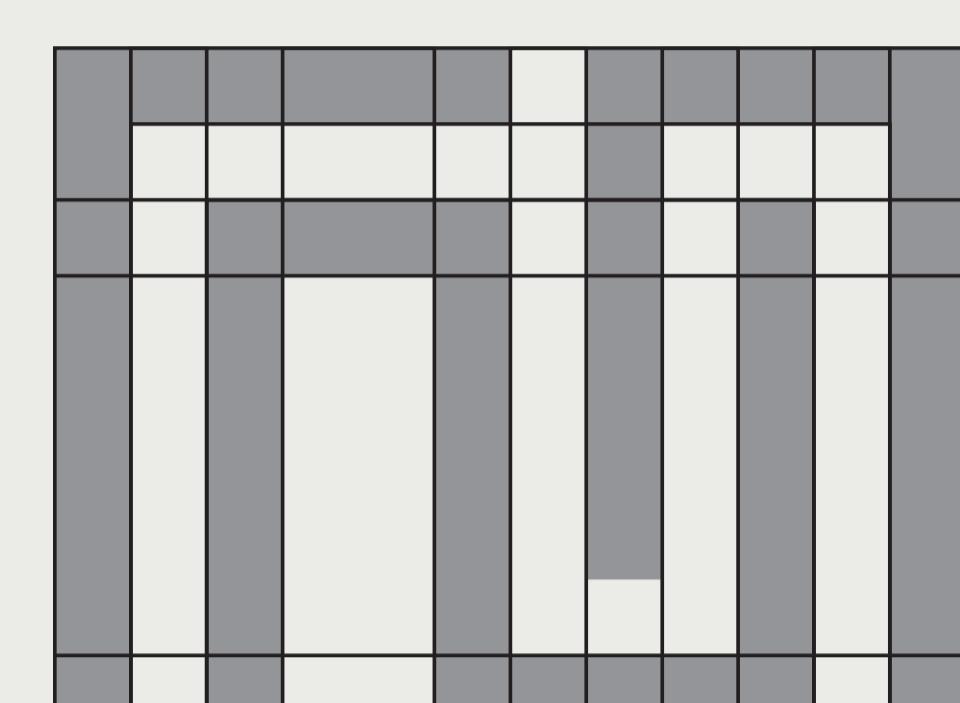

The logo uses a clean and simple wordmark font without any decoration, combined with a clear color palette. This reinforces a focus on user-friendliness and accessibility. The bold wordmark with potentially distinct rounded or sharp edges, along with the bright colors, creates a visually striking design that's easy to remember. The clean lines and lowercase lettering, potentially with sharp edges, contribute to a modern and contemporary feel. This could reflect a commitment to innovation.

Colours

Yellow often associated with happiness, optimism, and creativity. It can also suggest approachability and friendliness. Orange represents energy, enthusiasm, and warmth. It can also convey a sense of playfulness or confidence.

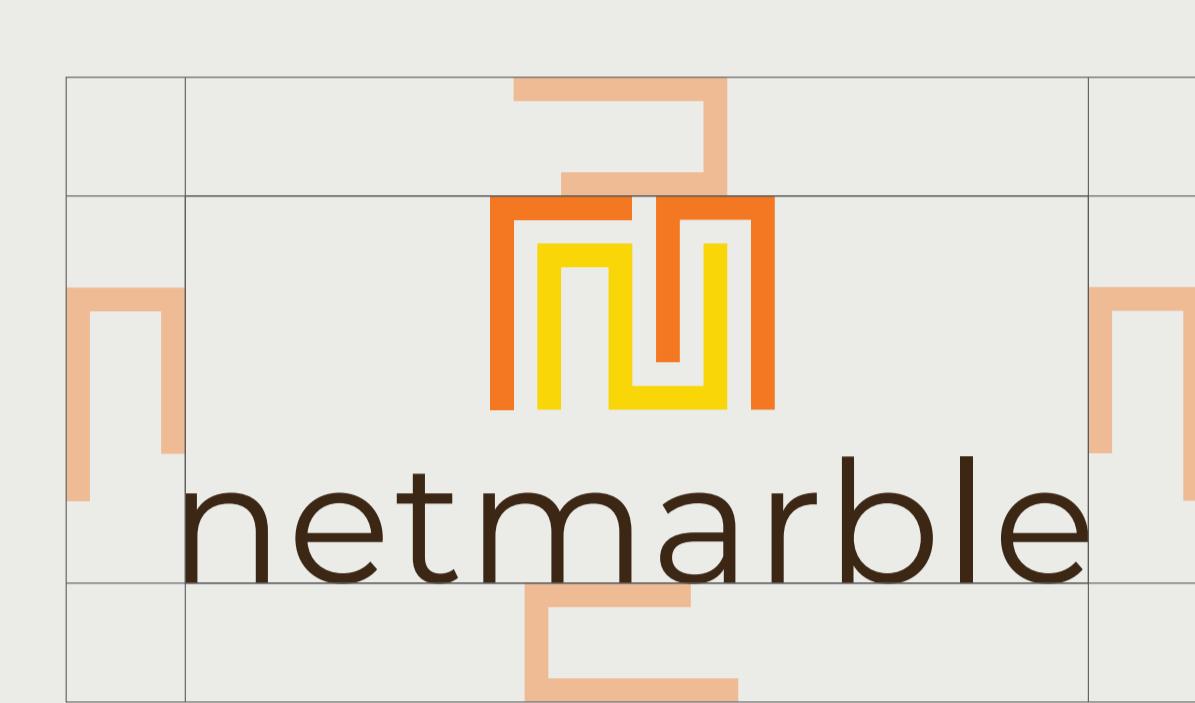

Logo Anatomy

The position and proportions of the logo are strictly fixed. They must not be changed or redrawn for any reason.

Clearspace

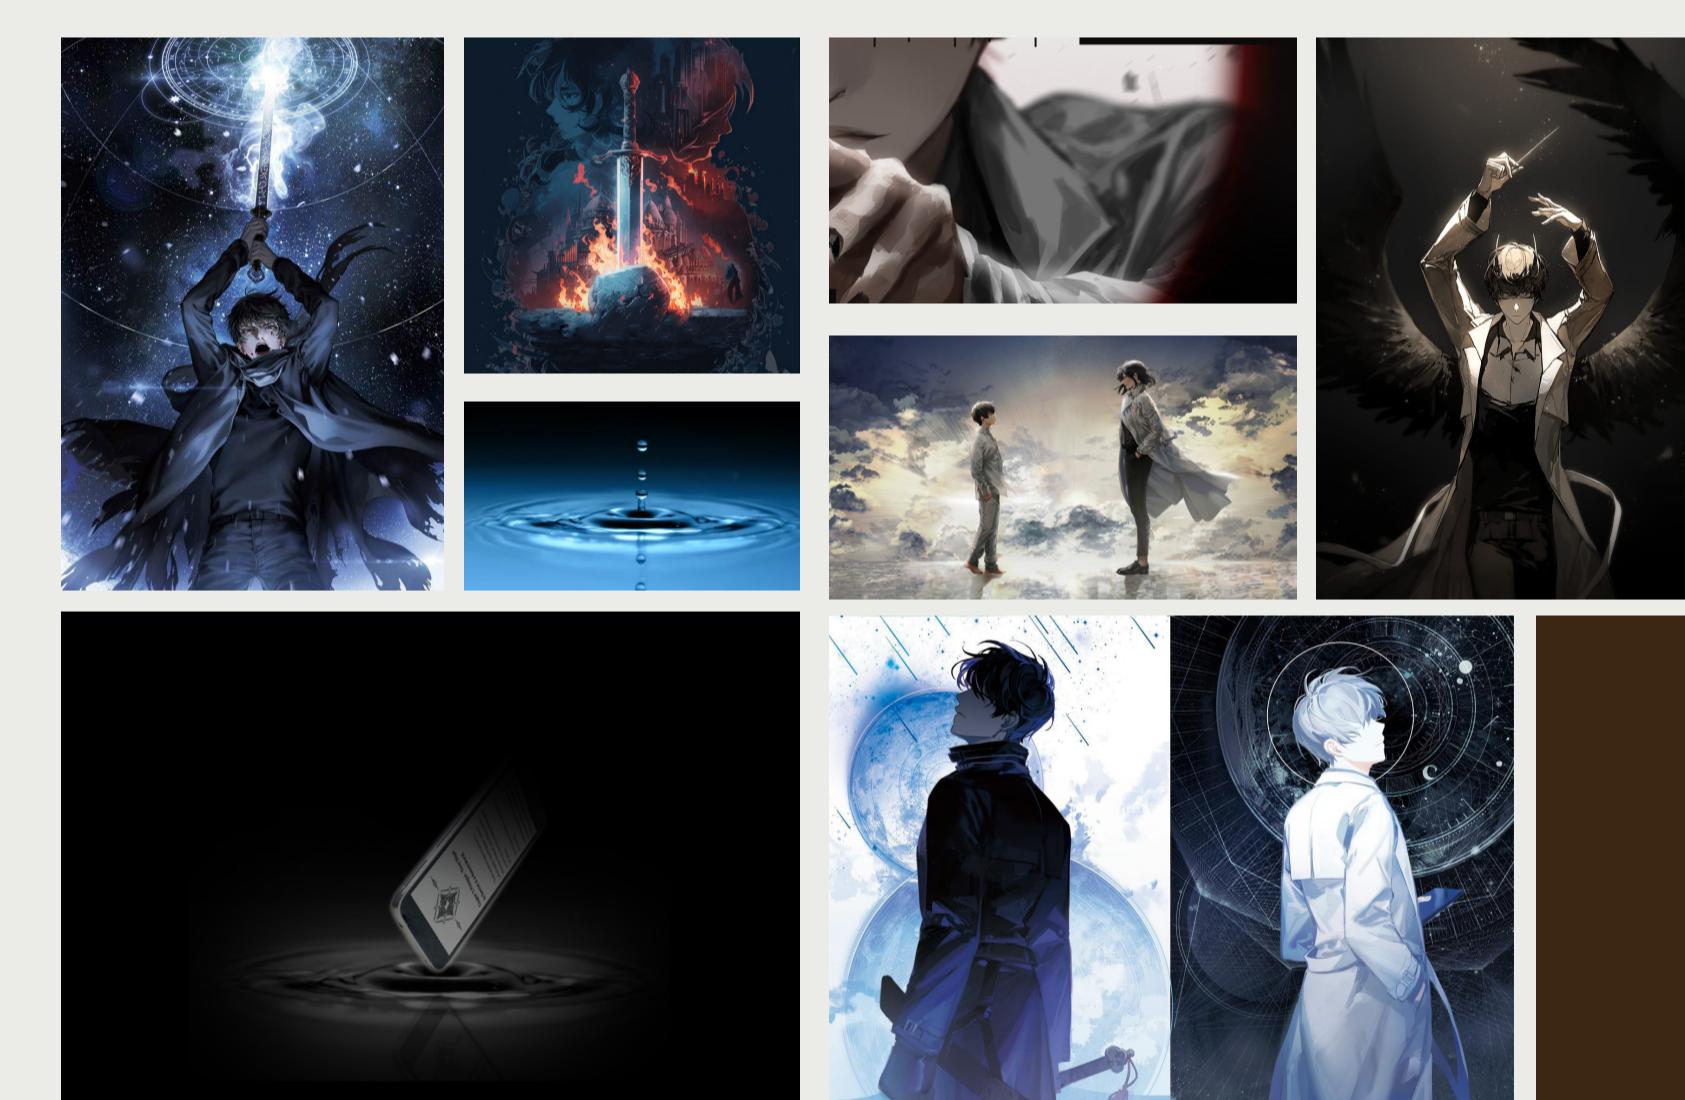

There should be sufficient clear space around the logo to let it breathe and prevent its clarity and visual impact from being obstructed.
